PORTFOLIO

ADRIAN POL SANO PELIGRINO

WHO AM I?

Hello! I’m Adrian Pol Sano Peligrino, a 24-year-old tech enthusiast dedicated to transforming visions into cutting-edge innovations. With a Bachelor of Science in Information Technology majoring in Software Development, I specialize in creating dynamic websites and powerful software solutions tailored for students and business models alike.

My skill set is comprehensive and diverse: from computer repair, programming, networking, and database management to a touch of graphic design, I ensure every project is executed with precision and creativity. I'm driven by a passion for understanding and meeting clients' needs, helping them turn dreams into reality through bespoke digital solutions.

Let's bring your vision to life with exceptional technology and innovative design!
